***Include Me**

“Include Me” is a Community Living B.C. initiative to understand the quality of life of individuals CLBC serves. Over time, the data gathered on personal outcomes will help everyone involved in community living to develop a deeper understanding of the impact that supports and services have on peoples’ quality of life. Survey data will generate evidence about program effectiveness and help guide CLBC decision making.

This project is currently in the demonstration project phase. Eventually all regions of the province will be involved, and all contracting agencies will be expected to assist. Pathways has volunteered to be involved in the demonstration project during the 2013-2014 year.

For more information see the CLBC website:
